Attn: Alvin Wilkening,

Consistent with the rules of the Federal Communications Commission ("FCC"), on November 24, 2003, Verizon Wireless will begin competitive porting by offering customers local number portability ("LNP").³⁵³ The FCC sought to simplify the task of identifying the switches in each MSA in which number portability is deployed and to facilitate competitive entry.³⁵⁴ The FCC's rules require local exchange carriers to make available, upon request by any interested party, a list of their switches for which provisioning of number portability has been requested (and therefore provided) and a list of their switches for which provisioning of number portability has not been requested.³⁵⁵ Verizon Wireless requires only a list of switches and NPA-NXX codes for which provisioning of LNP has not been requested.

Verizon Wireless has simplified this request by attaching a form containing a list of switches and codes for your review. This list was derived by using the LERG and comparing it to Verizon Wireless's licensed service areas. The list identifies the switch CLLI and NPA-NXX codes that Verizon Wireless believes are not yet LNP capable. Please review and update the attached form, making any necessary changes or additions to the list regarding switches and codes that have not been marked portable. Please indicate the date by which the switch and codes will be LNP capable.³⁵⁶ Any comments can be made in the column provided on the form.

Verizon Wireless requests that you review, update and return the attached form to the undersigned contact within 10 days of receipt. Please call the undersigned with any questions or concerns.

Bonafide Request Form (BFR)**Purpose:**

The purpose of this letter is to request the deployment of long-term Local Number Portability as defined by the FCC. Specifically, this form requests that **ALL** codes serving the Metropolitan Statistical Areas be opened for portability in the LERG and the NPAC and **ALL** switches serving these areas are LNP capable.

Note: MSAs refers to the identified U.S. Census Bureau MSAs for 2000. These may differ from the MSAs as separately defined by the wireless or wireline industries. In those instances where no MSA has been identified, please reference Rate Center to ensure switches and NPA-NXXs serving those areas are opened for porting
